

FOR MODEL 22NT,24NTX,44NT,66NT,88NT

Computer upgrade (replacing outdated computer) with a Pentium M

- Keeps your machine technology and software updated.
- Prevents down time due to discontinued replacement parts
- Permits the addition more features such as PPCS and the sorting of parts directly at the machine. See PPCS on website.
- NO more hard disk.
- Computer operates on 24 Vdc.
- More textual alarms, better help menus and more user-friendly.
