

FOR MODEL 22NT,24NTX,44NT,66NT,88NT

- ***Upgrading the Aluminum injection manifold for machined steel injection manifold***
 - *Improve machine performance as new valves come with the manifold*
 - *Makes a good preventive maintenance action after ten years of service.*
 - *Manifold made out of STEEL and protected by Black oxide treatment*
 - *Longer life time in production.*
 - *Tougher resistance to wear and erosion.*
 - *Stops oil leaks and air to penetrate in the hydraulic system.*
